a detailed and incisive analysis of the recorded history surrounding the last king of achaemenid persia darius iii the last of cyrus the great s dynastic inheritors and the legendary enemy of alexander the great darius iii ruled over a persian empire that stretched from the mediterranean to the indus river yet despite being the most powerful king of his time darius remains an obscure figure as pierre brian explains in the first book ever devoted to the historical memory of darius iii the little that is known of him comes primarily from greek and roman sources which often present him in an unflattering light as a decadent oriental who lacked the masculine virtues of his western adversaries influenced by the alexander romance as they are even the medieval persian sources are not free of harsh prejudices against the king dara whom they deemed deficient in the traditional kingly virtues ancient classical accounts construct a man who is in every respect alexander s opposite feeble minded militarily inept addicted to pleasure and vain when darius s wife and children are captured by alexander s forces at the battle of issos darius is ready to ransom his entire kingdom

to save them a devoted husband and father perhaps but a weak king while darius seems doomed to be a footnote in the chronicle of alexander s conquests in one respect it is darius who has the last laugh for after darius s defeat in 331 bce alexander is described by historians as becoming ever more like his vanquished opponent a darius like sybarite prone to unmanly excess praise for darius in the shadow of alexander briant is the world s leading authority on the persian empire that alexander conquered one of few living scholars with the linguistic mastery to study both the greco roman and persian sources and hence examine the reign of darius from european and asian perspectives in the intensely thorough analysis he conducts here he finds reasons to mistrust both traditions and thereby qualify the charge of cowardice that has shadowed darius for more than two millennia his insights are penetrating and his mastery of the evidentiary record is unsurpassed having deftly taken down much of the edifice supplied by the ancient accounts of darius briant finally turns architect and shows us how the rebuilding might begin james romm the wall street journal briant s work as always is a significant contribution to achaemenid studies a display of historiographical learnedness whose methods can benefit historians across ancient studies jennifer finn bryn mawr classical review

although it can be a daunting prospect the idea of working for yourself is gaining popularity this revised edition of a best selling guide addresses the common pitfalls and answers every question an entrepreneur might have about self employment fully updated to include new 2009 budget changes it deals with the full range of issues that need to be considered including business planning raising finance tax and legal issues keeping accounts and planning for growth including useful contact addresses and websites working for yourself is essential reading for anyone looking to take the plunge and go it alone

includes part 1a books and part 1b pamphlets serials and contributions to periodicals
